## Managed Distribution Policy

The Board of Directors of Sprott Focus Trust, Inc. (the “Fund”) has authorized a managed distribution policy (“MDP”). Under the MDP, the Fund pays quarterly distributions at an annual rate of 5% of the average of the prior four quarter-end net asset values, with the fourth quarter being the greater of this annualized rate or the distribution required by IRS regulations. With each distribution, the Fund will issue a notice to its stockholders and an accompanying press release that provides detailed information regarding the amount and composition of the distribution (including whether any portion of the distribution represents a return of capital) and other information required by the Fund’s MDP. You should not draw any conclusions about the Fund’s investment performance from the amount of distributions or from the terms of the Fund’s MDP. The Fund’s Board of Directors may amend or terminate the MDP at any time without prior notice to stockholders.

<sup>1</sup> Royce & Associates, LLC served as investment adviser of the Fund from November 1, 1996 to March 6, 2015. After the close of business on March 6, 2015, Sprott Asset Management LP and Sprott Asset Management USA Inc. became the investment adviser and investment sub-adviser, respectively, of the Fund.

<sup>2</sup> Russell Investment Group is the source and owner of the trademarks, service marks, and copyrights related to the Russell Indexes. Russell® is a trademark of Russell Investment Group. The Russell 3000 index measures the performance of the largest 3,000 U.S. companies. The performance of an index does not represent exactly any particular investment, as you cannot invest directly in an index.

## Important Performance and Risk Information

All performance information reflects past performance, is presented on a total return basis, net of the Fund's investment advisory fee, and reflects the reinvestment of distributions. Past performance is no guarantee of future results. Current performance may be higher or lower than performance quoted. Returns as of the most recent month-end may be obtained at [www.sprottfocustrust.com](http://www.sprottfocustrust.com). The market price of the Fund's shares will fluctuate, so shares may be worth more or less than their original cost when sold.

The Fund is a closed-end registered investment company whose shares of common stock may trade at a discount to their net asset value. Shares of the Fund's common stock are also subject to the market risks of investing in the underlying portfolio securities held by the Fund.

The Fund's shares of common stock trade on the Nasdaq Select Market. Closed-end funds, unlike open-end funds, are not continuously offered. After the initial public offering, shares of closed-end funds are sold on the open market through a stock exchange. For additional information, contact your financial advisor or call 1.203.656.2430. Investment policies, management fees and other matters of interest to prospective investors may be found in the closed-end fund prospectus used in its initial public offering, as revised by subsequent stockholder reports.

# Sprott Focus Trust

Whitney George

## DEAR FELLOW SHAREHOLDERS,

Sprott Focus Trust experienced quite an eventful year during 2015. First, shareholders approved in March the transfer of the Fund's management contract to Sprott Asset Management LP. Second, the Focus Trust Board was refreshed with three highly qualified independent directors — Michael Clark, Barbara Keady and Jim Pierce. Their energies and wide range of financial expertise

have reinvigorated the Focus Trust boardroom. Third, the entrepreneurial Sprott culture has permitted me to refocus my energies exclusively on the investment process at the heart of the Focus Trust charter: long-term wealth creation by means of a disciplined value approach. I would like to express my sincere gratitude to our new partners at Sprott, to our new Focus Trust directors, and most importantly, to my fellow Focus Trust shareholders in their support of these exciting developments.

During 2015, Focus Trust's net asset value declined 11.12%, and the share price declined 13.69% (net of distributions). This compares with a 0.48% increase in the Russell 3000 Index. While we are humbled by our 2015 performance, our confidence in the long-term value of our investment approach remains intact. During 2015, macro headlines of geopolitical developments and central bank policies dominated financial markets. Amid such tumultuous news flow, record sums of investment capital migrated to passive and derivative strategies. In this environment, the relative value of active stock selection endured yet another year of diminished favor in the investment community. Additionally, the seventh consecutive year of Fed zero interest rate policies continued to channel investor preferences toward growth over value. By way of context, many notable value investors posted their most challenging performance statistics in many years. Even value bellwether Berkshire Hathaway endured its worst performance in seven years, declining 12%. Perhaps the good news for value investors is that Berkshire has never experienced two successive declining years since the 1973-1974 lows.

As mentioned in our semi-annual report this past June, volatility has increased across all market sectors. Theoretically, this should produce a preferred environment for active managers focused on individual stock selection. In practice, however, the reverse occurred in 2015. During the second half of the year, market leadership rested on an unusually narrow group of "FANG" performers (Facebook, Amazon, Netflix and Google). Perhaps investor frustration over such concentrated leadership served to reinforce migration from active to passive strategies. Morningstar estimates (*Wall Street Journal* 1/13/16) that during 2015, investors liquidated \$207.3 billion worth of actively managed mutual funds, while purchasing \$413.8 billion worth of passive funds. Vanguard alone took in \$236 billion of new

investments in 2015, setting a fresh mutual fund company record and eclipsing 2014's prior record of \$215 billion in Vanguard inflows. Historically, rising popularity of passive investment vehicles has generally coincided with the latter stages of bull markets. When tides are rising so rapidly, who needs an active manager? We suspect the passive management trend, accelerating since 2009, may have peaked during 2015. The fact that U.S. equity averages have suffered their worst start to a year in history may give investors pause. Achieving average returns loses its appeal rapidly in bear markets. Once the tide turns back toward active and value strategies, the mean reversion of capital flows generally lasts for an extended period of years.

## Activity

During 2015, Focus Trust's five best performers were Cirrus Logic, Inc., Value Partners Group, Apple Inc., Cal-Maine Foods and Clarkson PLC. After profitable trimming of these positions during the first six months of the year, we selectively rebuilt these positions amid second-half pullbacks. One deletion from the Focus Trust portfolio during 2015 was AGCO. We felt aggressive share buybacks had over-levered AGCO's balance sheet and we chose to step aside.

Focus Trust holdings which penalized total portfolio return during 2015 included Western Digital, Franklin Resources, Buckle, GameStop Corp. and Unit Corp. All of these companies have been long term holdings of Focus Trust, and have generated significant positive performance in prior years. During 2015, we increased our positions in Franklin, Buckle and GameStop to take advantage of share price declines we viewed as incommensurate with their stable operating performance. In our experience, markets for value securities are rarely efficient — cheap companies can become cheaper, leading to exceptional investment opportunities over the medium and long term. By way of example, we have owned shares of Unit, a diversified energy company, for over a decade. While Unit shares declined over 64% during the past year, total portfolio performance was impacted by less than 1% and, because we view Unit as one of the ultimate survivors of the current energy drawdown, we expect to increase the position significantly as the energy sector recovers in future quarters.

Reflecting the patient time horizon we view as central to a successful value approach, we are somewhat confounded by the 2015 performance of Western Digital. This company is the world leader in memory storage hardware to cloud service providers, a massive growth market. During 2015, however, we believe the company's shares were unduly penalized by the 34% of Western Digital's revenues still emanating from legacy PC markets (down from 54% three years ago). Despite the fact the WDC's aggregate business slowed modestly during 2015, the company engaged in two transformative corporate transactions. First, in September, WDC secured a \$3.78 billion investment from a strategic Chinese investor for 15% of pro forma

shares (at what now represents a 100% premium to the current share price). Second, WDC utilized this improved capital position to negotiate an acquisition of memory market competitor SanDisk (also a Focus Trust holding). Incorporation of SanDisk's solid-state technology into WDC's extensive hard-drive product line should secure WDC's market leadership in the memory space well into the future. Under normal market conditions, either of these corporate announcements would have catalyzed strong market response. Yet, during 2015, Western Digital shares declined by 45% (contributing negative portfolio performance of 2.08%). As frustrating as the recent performance of WDC shares has been, we trust our fundamental analysis and view prevailing valuations for Western Digital as an attractive opportunity for increased Focus Trust commitments during 2016.

| <sup>1</sup> Includes dividends                |      | <sup>1</sup> Net of dividends                  |       |

Figure 1

Examining this past year's performance by sector, health care contributed 64 basis points of positive portfolio performance, while industrials contributed 29 basis points and consumer staples (mostly chicken and eggs) added an additional 27 basis points. Industry groups impacting total performance to the negative side were led by consumer discretionary (-2.88%), energy (-2.76%) and materials (-2.75%). Obviously, 2015 was tough sledding in these sectors.

Our 2015 portfolio turnover registered 33.7%, slightly above our five-year average of 27.4%. This was due to increased market volatility in the second half of the year. We still believe limited turnover is an important component of a long-term investment strategy which helps to minimize market friction costs.

### Positioning

At year-end 2015, Focus Trust remained relatively fully invested (4.15% cash position). We view our limited cash position more as a reflection of exceptionally attractive investment opportunities than as a general market call. Our portfolio has become slightly more concentrated during the past twelve months, with 44 positions versus 50 at the start of the year.

### Top 10 Positions

(% of Net Assets)

|                              |     |
|------------------------------|-----|

| Energy                    | 9.2  |
| Industrials               | 4.6  |
| Cash and Cash Equivalents | 4.2  |
| Health Care               | 3.6  |

Figure 2

Focus Trust positions are always capped at 5% of portfolio asset value. We provide in Figure 2, above, the Fund's top ten positions, as well as a breakdown of the portfolio's sector allocations. Our largest sector weightings are technology (17.5%), financials (18.0%), and materials (15.8%). Two sectors experiencing elevated market turbulence in recent months, energy and precious metals (subset of materials), represent 9.2% and 9.2% of portfolio assets, respectively. Our most unique industry sub-sector can best be described as "affordable protein" (within consumer staples), and, at a 12.6% portfolio weighting, includes two chicken processors and the nation's largest whole egg producer.

Figure 3

<sup>1</sup> **Geometric Average.** This weighted calculation uses each portfolio holding's market cap in a way designed to not skew the effect of very large or small holdings; instead, it aims to better identify the portfolio's center, which Spratt believes offers a more accurate measure of average market cap than a simple mean or median.

<sup>2</sup> **Harmonic Average.** This weighted calculation evaluates a portfolio as if it were a single stock and measures it overall. It compares the total market value of the portfolio to the portfolio's share in the earnings or book value, as the case may be, of its underlying stocks.

<sup>3</sup> The Fund's P/E ratio calculation excludes companies with zero or negative earnings.

More than half of Focus Trust portfolio companies are currently executing share-buyback programs. Additionally, shares of many Focus Trust portfolio companies register high short interest ratios, promising the potential for market leading returns as company fundamentals play out to our expectations. Importantly, the cap-rate calculations underpinning my valuation work over the past twenty years suggest the average Focus Trust holding now offers as attractive a risk/reward proposition as I can ever recall. We provide in Figure 3, above, a table of relevant financial characteristics of Focus Trust weighted average positions.

### Outlook

During the first week in January, broad equity averages posted historically poor performances. Consensus debate focuses on whether a new bear market has begun. From our perspective, various industry segments have already been experiencing rolling bear corrections during the past two years. For gold and precious-metal miners, the bear market began in 2011, for energy in 2014 and for small-cap stocks this past May. Only very recently have the largest S&P 500 generals begun to retreat with the troops. Important investment considerations for 2016 include how deep any U.S. market correction will extend, how impaired China's economy really is, and what the ultimate ramifications of collapsing energy prices will turn out to be. Our expectations for 2016 are that the lion's share of valuation adjustments for each of these three factors has already transpired. With earning season beginning in earnest in coming weeks, we look forward to the comparative rewards of some of our portfolio companies' strong fundamentals.

We expect the free fall in energy prices to end shortly as it appears the market has finally reached capitulation mode. Once prices stabilize, the rationalization of projects and investments can begin in earnest. There will be some great opportunities and big disappointments but at least the recent lifting of the U.S. oil-export ban will finally allow low-cost domestic producers to access global energy markets. As legacy price hedges expire and production curves of ephemeral shale deposits decline, we anticipate significant investment opportunities among well-run domestic energy producers. Furthermore, recent geopolitical headlines suggest political-risk premiums are likely to return to energy markets. We have learned to invest in post-bubble busts over the past two decades. Buying technology in 2001 and real estate in 2009 worked extremely well. We view energy and industrial commodities in 2016 as offering similar risk-reward opportunities.

A legitimate investment concern remains whether equity markets can progress in a post-QE environment. It would be nice to return to an environment in which markets were not dependent on monetary

intervention. Our early assessment is that the Fed's first rate increase may already be catalyzing a global deflationary chain reaction. The Fed was hoping to begin normalization of rates during the course of this year with four 25 basis point increases. Fixed income markets have already downgraded tightening prospects to just one incremental increase during all of 2016. Given the heightened role played by politics in 2016, we are worried about the potential for QE-4-Ever.

### The Discount

Shares of Focus Trust have in recent months traded at a discount to their Net Asset Value, ranging from 16% to 18%. Closed-end funds traditionally contend with the nettlesome issue of discounts in secondary trading of issued shares. As portfolio manager of Focus Trust, I can rationalize a reasonable fluctuation between discount and premium valuations to fund NAV, in return for the investment continuity afforded by a stable capital base. As the largest shareholder of Focus Trust, however, I am keenly aware of the arbitrage potential afforded between Focus Trust portfolio positions and quoted share price. Along these lines, the Board of Directors of Focus Trust has begun a process of consideration of various alternatives to address the Focus Trust discount to NAV. While there can be no assurance any substantive decisions or actions will be undertaken by our Board to address the prevailing discount, I do promise an update on these matters throughout the course of 2016. For the time being, we shall stick to our discipline, strive for improved performance and seek to share our approach with like-minded investors.

### Sprott

I am both delighted and energized by my recent move to Sprott. I remain deeply committed to the value investment discipline which has served me well for nearly three decades, through good times and bad. Because I view alignment of interests as a critical component of the manager-client relationship, I intend always to maintain a leading investment in any public vehicle I manage. Along these lines, my personal ownership of Focus Trust shares represents 23.1% of total shares outstanding. I have a sincere interest in maintaining contact and dialogue with all Focus Trust shareholders. I encourage any Focus Trust shareholder with questions or comments to feel free to contact me at 203-656-2430 or [wgeorge@sprottusa.com](mailto:wgeorge@sprottusa.com).

I look forward to hearing directly from any shareholders new or old. Many thanks for your interest.

Sincerely,  
Whitney George

**Important Performance and Risk Information**

All performance information reflects past performance, is presented on a total return basis, and reflects the reinvestment of distributions. Past performance is no guarantee of future results. Current performance may be higher or lower than performance quoted. Returns as of the most recent month-end may be obtained at [www.SprottFocusTrust.com](http://www.SprottFocusTrust.com). The market price of the Fund's shares will fluctuate, so shares may be worth more or less than their original cost when sold. The Fund normally invests primarily in small/mid cap companies, which may involve considerably more risk than investing in a larger-cap companies. The Fund also generally invests a significant portion of its assets in a limited number of stocks, which may involve considerably more risk than a broadly diversified portfolio because a decline in the value of any one of these stocks would cause the Fund's overall value to decline to a greater degree. Regarding the "Top Contributors" and "Top Detractors" tables shown on page 3, the sum of all contributors to, and all detractors from, performance for all securities in the portfolio would approximate the Fund's performance for 2015.

# History Since Inception

The following table details the share accumulations by an initial investor in the Fund who reinvested all distributions and participated fully in primary subscriptions for each of the rights offerings. Full participation in distribution reinvestments and rights offerings can maximize the returns available to a long-term investor. This table should be read in conjunction with the Performance and Portfolio Review of the Fund.

| HISTORY           |   | AMOUNT REINVESTED | PURCHASE PRICE <sup>1</sup> | SHARES       | NAV VALUE <sup>2</sup> | MARKET VALUE <sup>2</sup> |
|-------------------|---|-------------------|-----------------------------|--------------|------------------------|---------------------------|
| 10/31/96          | Initial Purchase                              | \$ 4,375          | \$ 4.375                    | 1,000        | \$ 5,280               | \$ 4,375                  |

<sup>1</sup> The purchase price used for annual distribution totals is a weighted average of the distribution reinvestment prices for the year.

<sup>2</sup> Values are stated as of December 31 of the year indicated, after reinvestment of distributions.

<sup>3</sup> Includes a return of capital.

# Distribution Reinvestment and Cash Purchase Options

## Why should I reinvest my distributions?

By reinvesting distributions, a stockholder can maintain an undiluted investment in the Fund. The regular reinvestment of distributions has a significant impact on stockholder returns. In contrast, the stockholder who takes distributions in cash is penalized when shares are issued below net asset value to other stockholders.

## How does the reinvestment of distributions from the Fund work?

The Fund automatically issues shares in payment of distributions unless you indicate otherwise. The shares are generally issued at the lower of the market price or net asset value on the valuation date.

## How does this apply to registered stockholders?

If your shares are registered directly with the Fund, your distributions are automatically reinvested unless you have otherwise instructed the Fund's transfer agent, Computershare, in writing, in which case you will receive your distribution in cash. A registered stockholder also may have the option to receive the distribution in the form of a stock certificate.

## What if my shares are held by a brokerage firm or a bank?

If your shares are held by a brokerage firm, bank, or other intermediary as the stockholder of record, you should contact your brokerage firm or bank to be certain that it is automatically reinvesting distributions on your behalf. If they are unable to reinvest distributions on behalf, you should have your shares registered in your name in order to participate.

## What other features are available for registered stockholders?

The Distribution Reinvestment and Cash Purchase Plan also allows registered stockholders to make optional cash purchases of shares of the Fund's common stock directly through Computershare on a monthly basis, and to deposit certificates representing your FUND shares with Computershare for safekeeping. Plan participants are subject to a \$0.75 service fee for each voluntary cash purchase under the Plans. The Fund's investment adviser is absorbing all commissions on optional cash purchases under the Plans through December 31, 2016.

## How does the Plan work for registered stockholders?

Computershare maintains the accounts for registered stockholders in the Plan and sends written confirmation of all transactions in the account. Shares in the account of each participant will be held by Computershare in non-certificated form in the name of the participant, and each participant will be able to vote those shares at a stockholder meeting or by proxy. A participant may also send stock certificates for FUND held by them to Computershare to be held in non-certificated form. There is no service fee charged to participants for reinvesting distributions. If a participant elects to sell shares from a Plan account, Computershare will deduct a \$2.50 service fee from the sale transaction. The Fund's investment adviser is absorbing all commissions on optional sales under the Plan through December 31, 2016. If a nominee is the registered owner of your shares, the nominee will maintain the accounts on your behalf.

## How can I get more information on the Plan?

You can call an Investor Services Representative at (203) 656-2430 or you can request a copy of the Plan for your Fund from Computershare. All correspondence (including notifications) should be directed to: Sprott Focus Trust Distribution Reinvestment and Cash Purchase Plan, c/o Computershare, PO Box 30170 College Station, TX 77842-3170, telephone (800) 426-5523 (from 9:00 A.M. to 5:00 P.M.).

|   | \$             | 162,116,542  |

<sup>1</sup> Non-Income producing.

<sup>2</sup> Security (or a portion of the security) is on loan. As of December 31, 2015, the market value of securities loaned was \$45,332,706. The loaned securities were secured with cash collateral of \$46,712,656 and non-cash collateral with a value of \$528,327. The non-cash collateral received consists of equity securities, and is held for the benefit of the Fund at the Fund's custodian. The Fund cannot repledge or resell this collateral. Collateral is calculated based on prior day's prices.

<sup>3</sup> Affiliated issuer.

<sup>4</sup> Represents an investment of securities lending cash collateral.

**TAX INFORMATION:** The cost of total investments for Federal income tax purposes was \$200,908,657. At December 31, 2015, net unrealized appreciation for all securities was \$7,885,003, consisting of aggregate gross unrealized appreciation of \$23,782,997 and aggregate gross unrealized depreciation of \$15,897,994.

| Average month-end market value per share  | \$ —                        | \$ —                        | \$ —                        | \$ —                        | \$ 25.65                    |

<sup>1</sup> Calculated using average shares outstanding during the period.

<sup>2</sup> The Market Value Total Return is calculated assuming a purchase of Common Stock on the opening of the first business day and a sale on the closing of the last business day of each period. Dividends and distributions are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's Distribution Reinvestment and Cash Purchase Plan. Net Asset Value Total Return is calculated on the same basis, except that the Fund's net asset value is used on the purchase and sale dates instead of market value.

<sup>3</sup> Expense ratios based on total average net assets including liquidation value of Preferred Stock were 1.17% and 1.16% for the years ended December 31, 2012 and 2011, respectively.

# Sprott Focus Trust (formerly, Royce Focus Trust)

## Notes to Financial Statements

### Summary of Significant Accounting Policies:

Sprott Focus Trust, Inc. (the “Fund”) is a diversified closed-end investment company incorporated under the laws of the State of Maryland. The Fund commenced operations on March 2, 1988, and Sprott Asset Management LP and Sprott Asset Management USA Inc. (collectively, “Sprott”) assumed investment management responsibility for the Fund after the close of business on March 6, 2015. Royce & Associates, LLC previously served as the Fund’s investment manager.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 “Financial Services-Investment Companies”.

At December 31, 2015, officers, employees of Sprott, Fund directors, and other affiliates owned 24% of the Fund.

### USE OF ESTIMATES:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from these estimates.

### VALUATION OF INVESTMENTS:

Securities are valued as of the close of trading on the New York Stock Exchange (NYSE) (generally 4:00 p.m. Eastern time) on the valuation date. Securities that trade on an exchange, and securities traded on Nasdaq’s Electronic Bulletin Board, are valued at their last reported sales price or Nasdaq official closing price taken from the primary market in which each security trades or, if no sale is reported for such day, at their highest bid price. Other over-the-counter securities for which market quotations are readily available are valued at their highest bid price, except in the case of some bonds and other fixed income securities which may be valued by reference to other securities with comparable ratings, interest rates and maturities, using established independent pricing services. The Fund values its non-U.S. dollar denominated securities in U.S. dollars daily at the prevailing foreign currency exchange rates as quoted by a major bank. Securities for which market quotations are not readily available are valued at their fair value in accordance with the provisions of the 1940 Act, under procedures approved by the Fund’s Board of Directors, and are reported as Level 3 securities. As a general principle, the fair value of a security is the amount which the Fund might reasonably expect to receive for the security upon its current sale. However, in light of the judgment involved in fair valuations, there can be no assurance that a fair value assigned to a particular security will be the amount which the Fund might be able to receive upon its current sale. In addition, if, between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that are significant and may make the closing price unreliable, the Fund may fair value the security. The Fund uses an independent pricing service to provide fair value estimates for relevant non-U.S. equity securities on days when the U.S. market volatility exceeds a certain threshold. This pricing service uses proprietary correlations it has developed between the movement of prices of non-U.S. equity securities and indices of U.S.-traded securities, futures contracts and other indications to estimate the fair value of relevant non-U.S. securities. When fair value pricing is employed, the prices of securities used by the Fund may differ from quoted or published prices for the same security. Investments in money market funds are valued at net asset value per share.

Various inputs are used in determining the value of the Fund’s investments, as noted above. These inputs are summarized in the three broad levels below:

**Level 1** – quoted prices in active markets for identical securities.

**Level 2** – other significant observable inputs (including quoted prices for similar securities, foreign securities that may be fair valued and repurchase agreements).

**Level 3** – significant unobservable inputs (including last trade price before trading was suspended, or at a discount thereto for lack of marketability or otherwise, market price information regarding other securities, information received from the company and/or published documents, including SEC filings and financial statements, or other publicly available information).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

# Sprott Focus Trust

## Notes to Financial Statements (continued)

The following is a summary of the Fund's investments as of December 31, 2015 based on the inputs used to value them. For a detailed breakout of common stocks by sector classification, please refer to the Schedule of Investments.

|                               | Level 1       | Level 2      | Level 3 | Total         |
|-------------------------------|---------------|--------------|---------|---------------|
| Common Stocks                 | \$139,448,843 | \$15,920,161 | \$—     | \$155,369,004 |
| Cash Equivalents              | —             | 6,712,000    | —       | 6,712,000     |
| Securities Lending Collateral | 46,712,656    | —            | —       | 46,712,656    |

The Fund did not recognize any level transfers as of the year ended December 31, 2015. Transfers into and out of a level are typically recognized at the end of the reporting period.

### REPURCHASE AGREEMENTS:

The Fund may enter into repurchase agreements with institutions that the Fund's sub-adviser has determined are creditworthy. The Fund restricts repurchase agreements to maturities of no more than seven days. Securities pledged as collateral for repurchase agreements, which are held until maturity of the repurchase agreements, are marked-to-market daily and maintained at a value at least equal to the principal amount of the repurchase agreement (including accrued interest). Repurchase agreements could involve certain risks in the event of default or insolvency of the counter-party, including possible delays or restrictions upon the ability of the Fund to dispose of its underlying securities.

### FOREIGN CURRENCY:

Net realized foreign exchange gains or losses arise from sales and maturities of short-term securities, sales of foreign currencies, expiration of currency forward contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities, including investments in securities at the end of the reporting period, as a result of changes in foreign currency exchange rates.

### TAXES:

As a qualified regulated investment company under Subchapter M of the Internal Revenue Code, the Fund is not subject to income taxes to the extent that it distributes substantially all of its taxable income for its fiscal year. The Schedule of Investments includes information regarding income taxes under the caption "Tax Information".

### DISTRIBUTIONS:

The Fund pays quarterly distributions on the Fund's Common Stock at the annual rate of 5% of the rolling average of the prior four calendar quarter-end NAVs of the Fund's Common Stock, with the fourth quarter distribution being the greater of 1.25% of the rolling average or the distribution required by IRS regulations. Prior to November 15, 2012, distributions to Preferred Stockholders were accrued daily and paid quarterly. Distributions to Common Stockholders are recorded on ex-dividend date. Distributable capital gains and/or net investment income were first allocated to Preferred Stockholder distributions, with any excess allocable to Common Stockholders. If capital gains and/or net investment income were allocated to both Preferred and Common Stockholders, the tax character of such allocations was proportional. To the extent that distributions are not paid from long-term capital gains, net investment income or net short-term capital gains, they will represent a return of capital. Distributions are determined in accordance with income tax regulations that may differ from accounting principles generally accepted in the United States of America. Permanent book and tax differences relating to stockholder distributions will result in reclassifications within the capital accounts. Undistributed net investment income may include temporary book and tax basis differences, which will reverse in a subsequent period. Any taxable income or gain remaining undistributed at fiscal year end is distributed in the following year.

### INVESTMENT TRANSACTIONS AND RELATED INVESTMENT INCOME:

Investment transactions are accounted for on the trade date. Dividend income is recorded on the ex-dividend date. Non-cash dividend income is recorded at the fair market value of the securities received. Interest income is recorded on an accrual basis. Premium and discounts on debt securities are amortized using the effective yield-to-maturity method. Realized gains and losses from investment transactions are determined on the basis of identified cost for book and tax purposes.

### EXPENSES:

The Fund incurs direct and indirect expenses. Expenses directly attributable to the Fund are charged to the Fund's operations, while expenses applicable to more than one fund managed by Sprott are allocated equitably.

# Sprott Focus Trust

## Notes to Financial Statements (continued)

### COMPENSATING BALANCE CREDITS:

The Fund has an arrangement with its custodian bank, whereby a portion of the custodian's fee is paid indirectly by credits earned on the Fund's cash on deposit with the bank. This deposit arrangement is an alternative to purchasing overnight investments. Conversely, the Fund pays interest to the custodian on any cash overdrafts, to the extent they are not offset by credits earned on positive cash balances.

### CAPITAL STOCK:

The Fund issued 851,470 and 675,314 shares of Common Stock as reinvestments of distributions for the fiscal years ended December 31, 2015 and December 31, 2014, respectively.

### INVESTMENT ADVISORY AGREEMENT:

The Investment Advisory Agreement between Sprott and the Fund provides for fees to be paid at an annual rate of 1.0% of the Fund's average daily net assets. The Fund accrued and paid investment advisory fees totaling \$346,715 to Royce & Associates, LLC for the period from January 1 - March 6, 2015 and \$1,487,941 to Sprott for the period from March 6 - December 31, 2015. Sprott can not recoup the expenses they reimburse.

### PURCHASES AND SALES OF INVESTMENT SECURITIES:

For the fiscal year ended December 31, 2015, the costs of purchases and proceeds from sales of investment securities, other than short-term securities, amounted to \$58,886,876 and \$64,818,905, respectively.

### DISTRIBUTIONS TO STOCKHOLDERS:

The tax character of distributions paid to common stockholders during 2015 and 2014 were as follows:

| <b>DISTRIBUTIONS PAID FROM INCOME:</b> | <b>2015</b>  | <b>2014</b> |
|--|--------------|-------------|
| Ordinary Income                        | \$ 2,320,542 | \$1,809,538 |
| Long-term capital gain                 | 7,805,916    | 7,556,547   |
|  | \$10,126,458 | \$9,366,085 |

As of December 31, 2015, the tax basis components of distributable earnings included in stockholder's equity were as follows:

|  |             |
|--|-------------|
| Net unrealized appreciation (depreciation) | \$7,874,653 |
| Post October loss*                         | —           |
| Undistributed ordinary income              | 1,032,659   |
| Undistributed capital gains                | —           |
|  | \$8,907,312 |

\*Under current tax law, capital losses and foreign currency losses after October 31 may be deferred and treated as occurring on the first day of the following fiscal year. As of December 31, 2015, the Fund did not have any post-October capital or currency losses.

The difference between book and tax basis unrealized appreciation (depreciation) is attributable primarily to the deferral of losses on wash sales and the realization for tax purposes of unrealized gains on investments in passive foreign investment companies.

For financial reporting purposes, capital accounts and distributions to stockholders are adjusted to reflect the tax character of permanent book/tax differences. These differences are primarily due to differing treatments of income and gains on various investment securities and foreign currency transactions held by the Fund, timing differences and different characterization of distributions made by the Fund. For the year ended December 31, 2015, the Fund recorded the following permanent reclassifications. Results of operations and net assets were not affected by these reclassifications.

| <b>UNDISTRIBUTED NET<br/>INVESTMENT INCOME</b> | <b>ACCUMULATED NET<br/>REALIZED GAIN (LOSS)</b> |
|--|---|
| \$29,861                                       | \$(29,861)                                      |

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years (2012-2015) and has concluded that as of December 31, 2015, no provision for income tax is required in the Fund's financial statements.

### INDEMNIFICATION OBLIGATIONS:

Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts that provide general

# Sprott Focus Trust

## Notes to Financial Statements (continued)

indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

### Investments in Affiliated Issuers:

The Fund may engage in certain transactions involving affiliates. The table below shows the investment activities involving affiliates during the reporting period:

| Affiliated Issuer           | Balance of Shares Held at 12/31/2014 | Gross Purchases | Gross Sales | Balance of Shares Held at 12/31/2015 | Dividend Income for period from 3/6/2015 to 12/31/2015 <sup>(1)</sup> | Net Realized Gain (Loss) for period from 3/6/2015 to 12/31/2015 <sup>(1)</sup> | Value of shares at 12/31/2015 |
|-----------------------------|--------------------------------------|-----------------|-------------|--------------------------------------|---|--|-------------------------------|
| Sprott, Inc. <sup>(2)</sup> | 1,750,000                            | —               | (140,300)   | 1,609,700                            | \$138,331   | \$(346,556)  | \$2,768,726                   |

<sup>(1)</sup> Sprott Asset Management LP became the investment adviser of the Fund on March 6, 2015.

<sup>(2)</sup> Sprott, Inc. was not an affiliate as of December 31, 2014.

### Lending of Portfolio Securities:

The Fund, using State Street Bank and Trust Company ("State Street") as its lending agent, may loan securities to qualified brokers and dealers in exchange for negotiated lenders' fees. The Fund receives cash collateral, which may be invested by the lending agent in short-term instruments, in an amount at least equal to 102% (for loans of U.S. securities) or 105% (for loans of non-U.S. securities) of the market value of the loaned securities at the inception of each loan. The market value of the loaned securities is determined at the close of business of the Fund and any additional required collateral is delivered to the Fund on the next business day. As of December 31, 2015, the cash collateral received by the Fund was invested in the State Street Navigator Securities Lending Prime Portfolio, which is a registered investment company. To the extent that advisory or other fees paid by the State Street Navigator Securities Lending Prime Portfolio are for the same or similar services as fees paid by the Fund, there will be a layering of fees, which would increase expenses and decrease returns. Information regarding the value of the securities loaned and the value of the collateral at period end is included in the Schedule of Investments. The Fund could experience a delay in recovering its securities, a possible loss of income or value and record realized gain or loss on securities deemed sold due to a borrower's inability to return securities on loan. These loans involve the risk of delay in receiving additional collateral in the event that the collateral decreases below the value of the securities loaned and the risks of the loss of rights in the collateral should the borrower of the securities experience financial difficulties.

As of December 31, 2015, the Fund had outstanding loans of securities to certain approved brokers for which the Fund received collateral:

| Market Value of Loaned Securities | Market Value of Cash Collateral | Market Value of Non Cash Collateral | Total Collateral |
|-----------------------------------|---------------------------------|-------------------------------------|------------------|
| \$45,332,706                      | \$46,712,656                    | \$528,327                           | \$47,240,983     |

Other information regarding the Fund is available through Sprott Asset Management's website [www.sprott.com](http://www.sprott.com) and on the Securities and Exchange Commission's website ([www.sec.gov](http://www.sec.gov)).

The following table presents financial instruments that are subject to enforceable netting arrangements as of December 31, 2015.

#### Gross Amounts Not Offset in the Statement of Assets and Liabilities

| Gross Asset Amounts Presented in Statement of Assets and Liabilities <sup>(a)</sup> | Financial Instrument | Collateral Received <sup>(b)</sup> | Net Amount (not less than \$0) |
|---|----------------------|------------------------------------|--------------------------------|
| \$45,332,706  | —                    | (\$45,332,706)                     | —                              |

<sup>(a)</sup> Represents market value of loaned securities at year end.

<sup>(b)</sup> The actual collateral received is greater than the amount shown here due to collateral requirements of the security lending agreement.

All securities on loan are classified as Common Stock in the Fund's Schedule of Investments as of December 31, 2015, with a contractual maturity of overnight and continuous.

### Recently Issued Accounting Pronouncements:

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07 "Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)." The amendments in ASU No. 2015-07 remove the requirement to categorize within the fair value hierarchy investments measured using the NAV practical expedient. The ASU

# Sprott Focus Trust

## Notes to Financial Statements (continued)

also removes certain disclosure requirements for investments that qualify, but do not utilize, the NAV practical expedient. The amendments in the ASU are effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Management is currently evaluating the impact these changes will have on the Fund's financial statements and related disclosures.

In June 2014 FASB issued *Accounting Standards Update 2014-11 Transfers & Servicing (Topic 860): Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures* to improve the financial reporting of repurchase agreements and other similar transactions. The guidance includes expanded disclosure requirements for entities that enter into repurchase agreements or securities lending transactions. The guidance is effective for financial statements with fiscal years beginning on or after January 1, 2015, and interim periods within those fiscal years. Management is evaluating the impact, if any, of this guidance on the Funds' financial statement disclosures.

### Subsequent Events:

Management has evaluated the possibility of subsequent events existing in the Fund's financial statements. Management has determined that there are no material events that would require adjustment or disclosure in the Fund's financial statements through the date of the publication of this report.

**Report of Independent Registered Public Accounting Firm**

**To the Shareholders and The Board of Trustees of  
Sprott Focus Trust, Inc.**

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Sprott Focus Trust, Inc. formerly known as Royce Focus Trust (the “Trust”), as of December 31, 2015 and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust’s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Trust is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2015, by correspondence with the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Sprott Focus Trust, Inc. as of December 31, 2015, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

# Board Approval of Investment Advisory Agreements

## **Board and Stockholder Approvals of New Investment Advisory and Subadvisory Agreements**

The Board of Directors of the Fund (then named “Royce Focus Trust, Inc.”) as constituted on December 16, 2014 (the “Prior Board”) at a regularly scheduled in-person Board meeting on December 16, 2014, approved, subject to stockholder approval, a new investment advisory agreement by and between the Fund and Sprott Asset Management LP (the “New Investment Advisory Agreement”) and a new investment subadvisory agreement by and among the Fund, Sprott Asset Management LP and Sprott Asset Management USA Inc. (together with the New Investment Advisory Agreement, the “New Agreements”). The Prior Board also voted to recommend that the stockholders of the Fund approve each New Agreement at a special meeting of stockholders of the Fund to take place on February 26, 2015. The stockholders at the Special Meeting of Stockholders on February 26, 2015 approved the New Agreements and elected three new Directors and one holdover Director (the “New Board”), replacing certain former Directors who had resigned. At a special in-person Board meeting on March 9, 2015, the New Board ratified and approved the New Agreements.

# Notes to Performance and Other Important Information

The thoughts expressed in this *Review and Report* concerning recent market movements and future prospects for small company stocks are solely the opinion of Sprott at December 31, 2015, and, of course, historical market trends are not necessarily indicative of future market movements. Statements regarding the future prospects for particular securities held in the Fund's portfolio and Sprott's investment intentions with respect to those securities reflect Sprott's opinions as of December 31, 2015 and are subject to change at any time without notice. There can be no assurance that securities mentioned in this *Review and Report* will be included in the Fund in the future. Investments in securities of micro-cap, small-cap and/or mid-cap companies may involve considerably more risk than investments in securities of larger-cap companies. All publicly released material information is always disclosed by the Fund on the website at [www.sprottfocustrust.com](http://www.sprottfocustrust.com).

Sector weightings are determined using the Global Industry Classification Standard ("GICS"). GICS was developed by, and is the exclusive property of, Standard & Poor's Financial Services LLC ("S&P") and MSCI Inc. ("MSCI"). GICS is the trademark of S&P and MSCI. "Global Industry Classification Standard (GICS)" and "GICS Direct" are service marks of S&P and MSCI.

All indexes referred to are unmanaged and capitalization weighted. Each index's returns include net reinvested dividends and/or interest income. Russell Investment Group is the source and owner of the trademarks, service marks, and copyrights related to the Russell Indexes. Russell® is a trademark of Russell Investment Group. The Russell 3000 Index measures the performance of the largest 3,000 U.S. companies representing approximately 98% of the investable U.S. equity market. The Russell 3000 Index is constructed to provide a comprehensive, unbiased and stable barometer of the broad market and is completely reconstituted annually to ensure new and growing equities are reflected. The performance of an index does not represent exactly any particular investment, as you cannot invest directly in an index. Returns for the market indexes used in this report were based on information supplied to Sprott by Russell Investments.

The Price-Earnings, or P/E, Ratio is calculated by dividing a company's share price by its trailing 12-month earnings-per share (EPS). The Price-to-Book, or P/B, Ratio is calculated by dividing a company's share price by its book value per share. The Sharpe Ratio is calculated for a specified period by dividing a fund's annualized excess returns by its annualized standard deviation. The higher the Sharpe Ratio, the better the fund's historical risk-adjusted performance. Standard deviation is a statistical measure within which a fund's total returns have varied over time. The greater the standard deviation, the greater a fund's volatility.

## Forward-Looking Statements

This material contains forward-looking statements within the meaning of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), that involve risks and uncertainties, including, among others, statements as to:

- the Fund's future operating results
- the prospects of the Fund's portfolio companies
- the impact of investments that the Fund has made or may make
- the dependence of the Fund's future success on the general economy and its impact on the companies and industries in which the Fund invests, and
- the ability of the Fund's portfolio companies to achieve their objectives.

This *Review and Report* uses words such as "anticipates," "believes," "expects," "future," "intends," and similar expressions to identify forward-looking statements. Actual results may differ materially from those projected in the forward-looking statements for any reason.

The Fund has based the forward-looking statements included in this *Review and Report* on information available to us on the date of the report, and we assume no obligation to update any such forward-looking statements. Although the Fund undertakes no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make through future stockholder communications or reports.

## Authorized Share Transactions

The Fund may repurchase up to 5% of the issued and outstanding shares of its common stock during the year ending December 31, 2016. Any such repurchase would take place at then prevailing prices in the open market or in other transactions. Common stock repurchases would be effected at a price per share that is less than the share's then current net asset value.

The Fund is also authorized to offer its common stockholders an opportunity to subscribe for additional shares of its common stock through rights offerings at a price per share that may be less than the share's then current net asset value. The timing and terms of any such offerings are within the Board's discretion.

## Proxy Voting

A copy of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities and information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available, without charge, on the Fund's website at [www.sprottfocustrust.com](http://www.sprottfocustrust.com), by calling (203) 656-2430 (toll-free) and on the website of the Securities and Exchange Commission ("SEC"), at [www.sec.gov](http://www.sec.gov).

## Form N-Q Filing

The Fund files its complete schedule of investments with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC's website at [www.sec.gov](http://www.sec.gov). The Fund's holdings are also on the Fund's website approximately 15 to 20 days after each calendar quarter end and remain available until the next quarter's holdings are posted. The Fund's Forms N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. To find out more about this public service, call the SEC at (800) 732-0330.

# Results of Stockholders Meeting

At a special meeting of stockholders held on February 26, 2015 (the “Special Meeting”), the Fund’s stockholders voted on the approval of new investment advisory and investment subadvisory agreements and on the election of directors. The following table sets forth the votes cast with respect to each matter voted on at the Special Meeting.

| <b>MATTER</b>                                    | <b>VOTES FOR</b> | <b>VOTES AGAINST</b> | <b>VOTES WITHHELD</b> |
|--|------------------|----------------------|-----------------------|
| Approval of New Investment Advisory Agreement    | 12,114,596       | 225,888              | 56,942                |
| Approval of New Investment Subadvisory Agreement | 12,111,161       | 227,451              | 58,815                |
| Election of Michael W. Clark as Director         | 14,538,427       | 378,063              | —                     |
| Election of W. Whitney George as Director        | 14,524,755       | 391,735              | —                     |
| Election of Barbara Connolly Keady as Director   | 14,523,326       | 393,164              | —                     |
| Election of James R. Pierce, Jr. as Director     | 14,524,756       | 391,734              | —                     |

At an annual meeting of stockholders held on September 24, 2015 (the “Annual Meeting”), the Fund’s stockholders voted to elect W. Whitney George and James R. Pierce, Jr. as Class I directors. Michael W. Clark and Barbara Connolly Keady remained directors after the Annual Meeting. The following table sets forth the votes cast with respect to each matter voted on at the Annual Meeting:

| <b>MATTER</b>                                | <b>VOTES FOR</b> | <b>VOTES AGAINST</b> | <b>ABSTAIN</b> | <b>BROKER NON-VOTES</b> |
|--|------------------|----------------------|----------------|-------------------------|
| Election of W. Whitney George as Director    | 20,171,267.968   | 310,475.233          | 0.000          | 0.000                   |
| Election of James R. Pierce, Jr. as Director | 20,167,369.828   | 314,373.373          | 0.000          | 0.000                   |
